# Winter Perfection

# Presidents Corner

I don't know what kind of surf sacrifice was performed but the waves have been incredible. One morning sticks out in my mind. After I stretched and made it through the yucky brown water at Cardiff I saw Tom coming out of a great barrel do a couple of turns and then pull in again, Awesome!! I could go on and on but I will save it for the Meeting on 2/13/01.

We had a pretty good showing at the Do Ho contest. Except for the water quality it was a really good time. Some local girls were MUD wrestling in the slinkiest mud on the coast. I missed the party but I heard it was a blast. Bruce will be speaking with the coalition about some judging problems (no interference calls in the 60+ final, 7 man heats...) Even with the problems they still pulled it off.

Check the calendar for this year activities are starting to happen. Stay involved to make our club work. Give me a call if you have ideas or want to become more involved. Stay red Emo

# January Surf was all Time

Sometimes everthing seems to come together. Nice weather, good waves, the right tide, good friends, ect. These conditions are normally rare enough that we really appreciate the times when everything is right. This makes surfing special.

Most surfers dream about getting that perfect tube ride, or racing a screaming section and blasting off the top. Our dreams were realized, and experienced on almost a daily basis. One tube ride a session is usually memorable, but 3 on one wave. We must be dreaming.

The recent 70 degree weather and 4 - 6 foot surf is just more of the same. It's -10 degrees in Buffalo NY. How much more of this perfection can we take?
